

Ingenico Tetra Lane 5000

Progressive terminal for your store

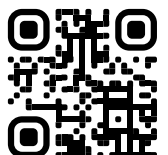

Thanks to the high-resolution touch display, signature capture using the stylus and user interface guidance are simplified. A wide range of connection options and an uncluttered workplace are made possible by the UPM (Universal Payment Mount) and a centrally located cable solution. In addition to the sale of prepaid cards and vouchers, a larger touchscreen with selection buttons also simplifies the operation of bonus and loyalty systems.

- ✓ Future-proof thanks to PCI PTS 4.x, TA 7.2 and DC POS 3.0 certifications
- ✓ Optimally suited for digital signature capture thanks to large display
- ✓ Modularly expandable software concept on a future-oriented platform
- ✓ Contactless payment with all cards, smartphones and smartwatches

Performance

With the powerful Cortex A5 processor and its Telium technology, the Lane 5000 offers the needed performance in all payment situations, ensuring a smooth experience.
