Verifone P400

Modern terminal for high demands

The P400 is characterized by its modern and compact design. The strong performance of the Cortex A9 processor enables an ideal performance for a seamless transaction process. Due to the contactless reader,
which is placed at the height of the display, NFC-enabled smartphones and smartwatches are supported in addition to contactless-capable cards for contactless payment. The P400 Plus version also supports WLAN connections and benefits from more storage space.

✓ Slightly tilted touchscreen display enables easy operability and readability

✓ Tempered glass offers high break resistance

✓ Fast processor enables the right performance for the transaction process at any time

✓ Future-proof thanks to PCI PTS 4.x, TA 7.2 and DC POS 3.0 approvals

✓ Contactless payment with all cards, smartphones and smartwatches
